Instructions for Task 2

You are only supplied a picture of how a design should look on desktop and mobile clients. See image below.

Please write down a few short sentences about your solution to the challenges in coding the mobile version of HTML Email as per attached responsive Email Design.

If applicable, point out the limitations of HTML in emails.

Please write in a grammatically and logically correct English language. You can submit your response either as a PDF/Word document or in the Email directly.

We expect your response to be 100-300 words long.
